

SWITCH2D350

NEW REGULATOR KIT

Your alternator is equipped with an analog regulator R448, R438 or R450, then our new **SWITCH2D350** regulator kit is for you!
The **SWITCH2D350** is an all-in-one kit that allows you to quickly replace an analog regulator by the D350 digital regulator.

Your ready-to-use solution!

• INCLUDED

- D350 regulator
- Set of cables converting Faston to MATE-N-LOK
- Secondary set of cables to connect the Current Transformer
- Bag of lugs in various sizes
- NLink™ programming module
- Installation manual

• ADVANTAGES

- Prevent wiring mistakes
- Avoid the use of specific tools
- Divide the regulator installation duration by two
- Allow to be technologically up-to-date
- Improve voltage regulation performances
- Comply with all new safety standards

Retrofit your AVR with confidence:
